

Introduction/Business Problem

Crime Rate in **Nigeria** has been on an increasing rate such that safety in the country is a serious concern to the citizens thereof, relocating In Nigeria cannot be easily determined, moving from another country to Nigeria: it's difficult to determine what state specifically can one stay, which state is safe to start a company, to start a business, or to start a new life with family

In respect to this I will be considering the country Nigeria as a whole as regards the Crime situation in the Country and how valid is the provision provided in terms of **Police Stations** in specific areas in the country, using **FourSquare Locations** to determine police stations in the specific areas.

This is targeted towards making decision as regards where is save to make a journey, where is save to do visitation, to set up a business.
